LOGO

Refacing means replacing the doors, drawer fronts and hardware on existing cabinets, as well as covering the sides and framework with self-adhesive veneer or plywood. Options such as new dovetail drawer boxes, upgraded molding and accessories such as valences and posts are also often included. The Tesla Construction Refacing program offers you an alternative to a costly full kitchen remodel, helping you stay within overall project budgets, while still producing the look of a brand new kitchen. Cabinet Refacing keeps structurally sound cabinets in the kitchen and out of the landfill. The Tesla Construction Refacing Program offers products and colors in any quantity and for any budget, without sacrificing product quality or accuracy. We will help answer your questions and provide the direction to make your kitchen remodel project painless, quick and stress free.

NOTE: Please see physical color swatches for accurate color representation. Many more colors and species are available.
